Write a program to sum of two given integers. However, if the sum is between 15 to 20 it will return 20.

@PYTHONCODE11

CODE

```
x=int(input("Enter number 1:"))
y=int(input("Enter number 2:"))
sm=x+y
if sm in range(15,20):
    print("20")
else:
    print(sm)
```
