**Write a program to check if a number  
is Armstrong number or not**

@PYTHONCODE11

## CODE

```
n=int(input("Enter the numbers"))
sum1=0
copy=n
while copy>0:
    r=copy%10
    sum1=sum1+r**3
    copy=copy//10
if(n==sum1):
    print("It is a Armstrong number")
else:
    print("It is not a Armstrong number")
```
