**Write a Python program to convert all units of time into seconds.**

@PYTHONCODE11

## CODE

```
days=int(input("Input days:"))*3600*24
hours=int(input("Input hours:"))*3600
minutes=int(input("Input minutes:"))*60
seconds=int(input("Input seconds:"))
time=days+hours+minutes+seconds
print("The amounts of seconds", time)
```

@PYTHONCODE11
