Write a program to remove odd index element from array

Input : [1,2,3,4,5,6,7,8]

Output : [1,3,5,7]

@PYTHONCODE11

CODE

```
arr1=[1,2,3,4,5,6,7,8]
arr2=[]
n=len(arr1)
for i in range(n):
    if i%2==0:
        arr2.append(arr1[i])
print(arr2)
```

@PYTHONCODE11
