

SWIPE FOR ANSWER

**Write a program to check whether  
uppercase letters exist in a string.**

Input : 'PythoCode'

Output : True

@PYTHONCODE11

## CODE

```
string = 'PythoCode'  
res=False  
for x in string:  
    if x.isupper():  
        res=True  
print(res)
```

@PYTHONCODE11
