**Write a Program to check leap year  
or not**

@PYTHONCODE11

## CODE

```
year=int(input("Enter year:"))
if(year%4)==0:
    if(year%100)==0:
        if(year%400)==0:
            print("{} is leap year".format(year))
        else:
            print("{} is Not a leap year".format(year))
    else:
        print("{} is leap year".format(year))
else:
    print("{} is Not a leap year".format(year))
```

@PYTHONCODE11
