

SWIPE FOR ANSWER

Write a Python program to concatenate all elements in a list into a string and return it.

Input : [1,5,12,2]

Output : 15122

@PYTHONCODE11

CODE

```
list1=[1,5,12,2]
str1=""
for x in list1:
    str1+=str(x)

print(str1)
```

@PYTHONCODE11
