**Write a program to check if number
is palindrome or not**

@PYTHONCODE11

CODE

```
n=int(input("Enter the number:"))
rev=0
copy=n
while copy!=0:
    r=copy%10
    rev=rev*10+r
    copy=copy//10
if(rev==n):
    print("It is palindrome number")
else:
    print("It is not a palindrome number")
```

@PYTHONCODE11
