Write a program to filter the positive numbers from a list.

Input   : [11,-21,45,-63]
Output : [11, 45]

CODE

```python
list1=[11,-21,45,-63]
list2=[]
for x in list1:
    if x >=0:
        list2.append(x)

print(list2)
```
